In this elegant volume, literary critics scrutinize the existing Wallace scholarship and at the same time pioneer new ways of understanding Wallace's fiction and journalism. In critical essays exploring a variety of topics—including Wallace's relationship to American literary history, his place in literary journalism, his complicated relationship to his postmodernist predecessors, the formal difficulties of his 1996 magnum opus *Infinite Jest*, his environmental imagination, and the “social life” of his fiction and nonfiction—contributors plumb sources as diverse as Amazon.com reader recommendations, professional book reviews, the 2009 *Infinite Summer* project, and the David Foster Wallace archive at the University of Texas's Harry Ransom Center.

The carefully chosen selections in 50 Essays include both classic essays and high-interest, high-quality contemporary readings to hold students' interest, inspire their writing, and prepare them to work with nonfiction at the college level. 50 Essays will help your AP® English Language students acquire the critical thinking and academic writing skills they need to succeed. Real Essays delivers the powerful message that good writing, thinking, and reading skills are both essential and achievable. From the inspiring stories told by former students in Profiles of Success to the practical strategies for community involvement in the new Community Connections, Real Essays helps students to connect the writing class with their real lives and with the expectations of the larger world. So that students don't get overwhelmed, the book focuses first on the most important things in each area, such as the Four Most Serious Errors in grammar; the Four Basics of each rhetorical strategy; and the academic skills of summary, analysis, and synthesis. Read the preface.

In this bold book, Samuel Cohen asserts the literary and historical importance of the period between the fall of the Berlin wall and that of the Twin Towers in New York. With refreshing clarity, he examines six 1990s novels and two post-9/11 novels that explore the impact of the end of the Cold War: Fynchon's *Mason & Dixon*, Roth's *American Pastoral*, Morrison's *Paradise*, O'Brien's *In the Lake of the Woods*, Didion's *The Last Thing He Wanted*, Eugenides's *Middlesex*, Letem's *Fortress of Solitude*, and DeLillo's *Underworld*. Cohen emphasizes how these works reconnect the past to a present that is ironically keen on denying that connection. Exploring the ways ideas about paradise and pastoral, difference and exclusion, innocence and righteousness, triumph and trauma deform the stories Americans tell themselves about their nation's past, *After the End of History* challenges us to reconsider these works in a new light, offering fresh, insightful readings of what are destined to be classic works of literature. At the same time, Cohen enters into the theoretical discussion about postmodern historical understanding. Throwing his hat in the ring with force and style, he confronts not only Francis Fukuyama's triumphalist response to the fall of the Soviet Union but also the other literary and political “end of history” claims put forth by such theorists as Fredric Jameson and Walter Benn Michaels. In a straightforward, affecting style, *After the End of History* offers us a new vision for the capabilities and confines of contemporary fiction.
