[The New York Times bestseller: "You gotta read this. It is the most exciting book about Pluto you will ever read in your life." —Jon Stewart When the Rose Center for Earth and Space at the American Museum of Natural History reclassified Pluto as an icy comet, the New York Times proclaimed on page one, "Pluto Not a Planet? Only in New York." Immediately, the public, professionals, and press were choosing sides over Pluto's planethood. Pluto is entrenched in our cultural and emotional view of the cosmos, and Neil deGrasse Tyson, award-winning author and director of the Rose Center, is on a quest to discover why. He stood at the heart of the controversy over Pluto's demotion, and consequently Plutophiles have freely shared their opinions with him, including endless hate mail from third-graders. With his inimitable wit, Tyson delivers a minihistory of planets, describes the oversized characters of the people who study them, and recounts how America's favorite planet was ousted from the cosmic hub.](#)

[In the face of conflict and despair, we often console ourselves by saying that history will be the judge. Today ' s oppressors may escape being held responsible for their crimes, but the future will condemn them. Those who stand up for progressive values are on the right side of history. As ideas once condemned to the dustbin of history—white supremacy, hypernationalism, even fascism—return to the world, threatening democratic institutions and values, can we still hold out hope that history will render its verdict? Joan Wallach Scott critically examines the belief that history will redeem us, revealing the implicit politics of appeals to the judgment of history. She argues that the notion of a linear, ever-improving direction of history hides the persistence of power structures and hinders the pursuit of alternative futures. This vision of necessary progress perpetuates the assumption that the nation-state is the culmination of history and the ultimate source for rectifying injustice. Scott considers the Nuremberg Tribunal and South Africa ' s Truth and Reconciliation Commission, which claimed to carry out history ' s judgment on Nazism and apartheid, and contrasts them with the movement for reparations for slavery in the United States. Advocates for reparations call into question a national history that has long ignored enslavement and its racist legacies. Only by this kind of critical questioning of the place of the nation-state as the final source of history ' s judgment, this book shows, can we open up room for radically different conceptions of justice.](#)
