Era of Universal Evolution Chapter 22 –
Comrade Mao

Rationality and evolution are apparently quite different, applying, respectively, to the acts of complex, well-informed individuals and to populations of what may be mindlessly simple entities. So it is remarkable that evolutionary game theory shows the theory of rational agents and that of populations of replicating strategies to be isomorphic.

Chapter 22 The French Bourgeois Revolution. From the rising of the Jacquerie in 1358 to the calling together of the National Assembly in 1789, France had passed through the development of her social system, from a congeries of great and small more or less independent feudal territories, to France as a nation under one autocratic monarch.
