The Descriptive Phenomenological Psychological Method

The descriptive phenomenological method in psychology was developed by the American psychologist Amedeo Giorgi in the early 1970s. Giorgi based his method on principles laid out by philosophers like Edmund Husserl and Maurice Merleau-Ponty as well as what he had learned from his prior professional experience in psychophysics. Giorgi was an early pioneer of the humanistic psychology movement, the use of phenomenology in psychology, and qualitative research in psychology, and to this day continues

Descriptive phenomenological method in psychology - Wikipedia

Abstract. Phenomenology in the modern sense of the term is dated from 1900 when E. Husserl published Logical Investigations (1900/1970), although the phenomenological method itself was not explicitly practiced in that work. It was in Ideas I (1913/1983) that Husserl made the method explicit. It is important to appreciate that to make phenomenological claims in the strongest sense one would have to use some version of the phenomenological method, along with certain other key procedures.

The descriptive phenomenological psychological method.

The Descriptive Phenomenological method in Psychology uses a five-step method of data analysis based on some principles of phenomenological philosophy (Amedeo Giorgi, personal communication). In each step, I will explain the procedure and its corresponding philosophical concept that supports its purpose and character.

By far the best known descriptive approach in psychology is that of Amedeo Giorgi (1985), who is widely credited as a pioneer in bringing phenomenological thinking into psychology. Iorgi's method can be seen as a form of distillation, in which the analyst step by step sifts away everything that is not essential to an adequate description of the phenomenon.

Colaizzi's descriptive phenomenological method

Phenomenology within psychology is the psychological study of subjective experience. It is an approach to psychological subject matter that has its roots in the phenomenological philosophical work of Edmund Husserl. Early phenomenologists such as Husserl, Jean-Paul Sartre, and Maurice Merleau-Ponty conducted philosophical investigations of consciousness in the early 20th century. Their critiques of psychologism and positivism later influenced at least two main fields of contemporary psychology:

Phenomenology (psychology) - Wikipedia

Phenomenological psychology refers to an approach to psychology that draws on phenomenological, existential, and hermeneutic philosophy. The focus in all such work is on making sense of the meaning structures of the lived experience of a research participant or psychotherapeutic client. That is, in Husserl's terms-the founder of phenomenological philosophy-we go "back to the things themselves" as they present themselves to consciousness in order to determine the "essence ...
