In 2020, I retired after 42.5 years of teaching Life Science to middle school students, but I always considered the frog dissection unit as one of my favorites. Over 20 years ago, I decided that walking entire classes through this activity - step by step - was just too exhausting, so I put the first version of this self-paced guide on paper.

The urinary system consists of the frog ' s kidneys, ureters, bladder, and cloaca. The kidneys are organs that excrete urine.

Connected to each kidney is a ureter, a tube through which urine passes into the urinary bladder, a sac that stores urine until it passes
