Water is made up of lots of tiny molecules. The molecules are attracted to each other and stick together. The molecules on the very top of the water stick together very closely to make a force called surface tension.. Surface tension is what caused the water to rise up above the rim of the glass in the experiment - the water molecules stuck together to make a dome instead of spilling over

When was the last time you picked up a pair of scissors? Was it when you cut open a letter envelope? Or what about that time you cut into that book a few millimeters? But if you think about it, those creaky scissors can be used for fun. Now how about applying those scissors to something artistic and practical! They can be good friends and a source of magic when you want to make something for yourself or others. With a little wrist action and some paper those rusty scissors can turn little sheets into a bouquet of flowers! They can be used to celebrate or commemorate a special occasion. Or they can add color and beauty to a setting with little more than a traced pattern and some dexterity. In *Simply Precious Pop-Ups* paper-crafter Kiyoshi Kikuchi offers up more than
