DJI, the company that gave us the far too popular Phantom line of quadcopters, doesn't just make the most popular line of FPV quads. Their top of the line flight controller, The Naza V2, is very ...

Bring the joy of independent reading to emerging readers! This nonfiction book features five high-frequency words paired with simple images to form meaningful sentences, aiding in memorization and engagement. Through repetition and multiple exposures to each word, emerging readers will achieve mastery of these Fry words: a, an, has, more, and than. The bright images and clever text bring the words to life, capturing the attention of first grade students as they learn about more and less. This 6-Pack includes six copies of this title and a content-area lesson plan.

Exploring the relationship between competition law and technology pools, this book provides general-purpose details of the biotechnology patent pool scheme while discussing historical developments, approaches of the US Department of Justice, Federal Trade Commission, and the European Union Competition Commission via EU regulations. In addition to these regulatory approaches and evolution in concept and theory of technology pools, this book illustrates relationship issues including tying arrangements and essential facility consideration vis-à-vis technology pools. It analyzes the modalities of forming such pools in the area of biotechnology, specifically illustrating that the formation of technology pools is possible and can be safely undertaken, and proposes a viable solution and structure. Patent pools in the biotechnology industry will pave the way towards open collaborative research, reducing patent thickets. Formation of such pools will increase access to various technology and patents otherwise out of bounds, resulting in a reduction of licensing costs and a spur in the development of new solutions. Most importantly, such pools will reduce the frequency of patent toll gates, making the entire spectrum of research interesting from the perspective of researchers as well as investors. This book will be an aid to researchers studying intellectual property, patents, and biotechnology, as well as to interest groups including funding agencies, venture funds, angel investors, and proponents of the open-source movement.

Freedom of association under international law -- Freedom of association under US law -- A note on methodology -- Violations of international freedom of association standards by European companies in the United States -- Recommendations -- Acknowledgments.

A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of The Rising Sun and Infamy. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland pored over military archives and was the first person to gain access to previously undisclosed Chinese records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. In Mortal Combat is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from the appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado.

Amid the lush abundance of Java's landscape, two boys spend their days exploring the vast lakes and teeming forests. But as time passes the boys come to realize that their shared sense of adventure cannot bridge the gulf between their backgrounds, for one is the son of a Dutch plantation owner, and the other the son of a servant. Inevitably, as they grow up, they grow estranged and it is not until years later that they meet again. It will be an explosive and emblematic meeting that marks them even more deeply than their childhood friendship did.

When a Beautiful but Deadly Assassin Murders a Man in a DC Hotel Room, Noble is Ordered to Find The Killer And Bring Her to Justice. After the devastating death of Samantha Gunn, Jake Noble has spent every night since drinking himself into oblivion. Jake's world is shattered and he's looking for answers, instead he gets a call from Langley. A Secret Service agent has been found dead, the CIA wants to know who killed him and why. Noble tracks the assassin across two continents only to discover a larger, more sinister plot at work. Someone is trying to destroy the United States of America, and Noble may be the only man who can stop it. Book 4 in the highly popular Jake Noble Thriller Series! "A top-notch thriller." "A truly a well written, fast-paced, page turning book; I loved it!" "This was a wonderfully well-written and intense thriller that I thoroughly enjoyed and I will definitely be grabbing future releases in this series." "Fun, sexy, and dark." "I agree with other readers who have compared Miller's NEW HERO - Jake Noble to Mitch Rapp, Scot Harvath, and I would add Kyle Achilles and Sean Drummond."
