When times are hard, leadership makes the greatest difference. So says the evidence. This book shows how to make the kind of difference that all organizations, both public and private sector, want and need. Early chapters show the powerful effect leadership can have on organizations; subsequent chapters present new ideas that are elegantly simple, conceptually coherent and radically different, based on the best research in the field. The ideas in this book have also been tested in major multinational organizations over recent years. The aim is to provide leaders and those who work with them with a practical guide to how to increase the effectiveness of leadership in any organization.

If you only read one book on leadership this year, make it this one! Leadership experts David Pendleton and Adrian Furnham present an innovative model for leadership success in a turbulent world. In today's business environment, leaders at all levels are facing enormous challenges when it comes to achieving and sustaining breakthrough operating results. Globalization, economic change, more stringent regulation, and tougher governance make realizing shareholder value increasingly difficult. Intelligent Leadership is written for leaders who want to become more effective, strategic, operationally focused, and balanced. It is for leaders who are striving to take control of their destiny and become the best they can be. In this groundbreaking book, leadership coach John Mattone—recently named to the "guru radar" by the prestigious Thinkers50—taps into his years of experience working with high-achieving professionals to give readers a roadmap for developing and mastering their executive maturity. Supplying three unique tools—the Wheel of Leadership Success, Map of Leadership Maturity, and the Leadership Enneagram—the book helps readers calibrate their abilities so they can simultaneously focus on their strengths and address their weaknesses. The goal is to improve key tactical competencies (such as critical and strategic thinking, decision-making, talent and team leadership, and communication) and integrate them with equally important inner traits like values, character, and beliefs in order to achieve their leadership potential. Featuring best practices, authoritative research, practical assessments, and enlightening examples of both good and bad leadership, this book equips readers with the knowledge, skills, and passion they need to become the leaders they were meant to be.

Leadership is most needed in times of change, uncertainty and crisis. We are living through those times. To support leaders in all spheres, this book provides a guide to the territory of leadership and its three domains: the strategic (head), the operational (hands) and the interpersonal (heart). It describes the tasks leaders have to achieve and explains the psychology of leadership based in personality. It argues strongly that complete leadership is the province of diverse teams of leaders made up of complementary differences. And now the best has just got better. The new edition shows how leadership has to change over time, describes how the most highly rated leaders achieve their goals and also elucidates the neuroscience of leadership to enhance understanding of leadership ' s foundations. Pendleton, Furnham and Cowell ' s work is a powerful combination of the best research on the psychology of leadership and years of iteration and practical implementation in the field – working with thousands of leaders from all walks of life and learning from their successes and challenges. There is no one secret recipe for success as a leader. What this book provides is a framework to enable you to achieve success in your own way.

An inspiring business fable that champions leadership for the Everyman From bestselling author Chris Widener comes a compelling new story showing what you give and get when you lead. The story follows down-cast protagonist Mike Keller who, recently separated from his wife and demoted at work, must relocate to a rural factory-town in Texas. There, Mike encounters the deep-rooted traditions of Texas high school football, and in the process learns everything business school didn't teach him about leadership from the most influential man in town—the local high school football coach. Highlights the Four Rules of Leadership: You Get What You Expect, You Get What You Model, You Get What You Reward, and You Get What You Work For Advises readers, in an accessible teaching style, on how to tailor the Rules to their own circumstances Includes reflection questions as a tool to guide readers in enriching their work life, family relationships, and social interactions Leadership Rules is an engaging, refreshing tale that imparts leadership lessons easily applied to both work life and your interpersonal relationships.

Have you ever wondered what characteristics are shared by successful business leaders? Have you ever asked yourself what it is that they do differently which makes them and their organisations stand out from the crowd? And what can you learn from them to ensure your own success? If so, The Book of Leadership is for you. Over the last six years, Anthony Gell has conducted interviews with some of the most successful CEOs, entrepreneurs and business thinkers in the world, including Sir Terry Leahy, former CEO of Tesco, Richard Reed, founder of innocent drinks, Olaf Swantee, CEO of EE and Daniel Goleman, author of the bestselling Emotional Intelligence. Now for the first time, he is bringing together hours of exclusive interview footage into a single resource for anybody looking to improve their leadership skills. In The Book of Leadership he combines his own experiences as a CEO with those of the leaders he has interviewed to provide insights and advice in three core areas: * Part 1 looks at leaders as individuals and reveals the personal habits and attributes that have laid the foundations for their success. * Part 2 focuses on what it takes to build and motivate a world class team * Part 3 goes beyond team leadership to identify how the habits of effective leadership are carried through on a larger scale in organisations.

Wall Street Journal Bestseller From the acclaimed author of Turn the Ship Around!, former US Navy Captain David Marquet, comes a radical new playbook for empowering your team to make better decisions and take greater ownership. You might imagine that an effective leader is someone who makes quick, intelligent decisions, gives inspiring speeches, and issues clear orders to their team so they can execute a plan to achieve your organization's goals. Unfortunately, David Marquet argues, that's an outdated model of leadership that just doesn't work anymore. As a leader in today's networked, information-dense business climate, you don't have full visibility into your organization or the ground reality of your operating environment. In order to harness the eyes, ears, and minds of your people, you need to foster a climate of collaborative experimentation that encourages people to speak up when they notice problems and work together to identify and test solutions. Too many leaders fall in love with the sound of their own voice, and wind up dictating plans and digging in their heels when problems begin to emerge. Even when you want to be a more collaborative leader, you can undermine your own efforts by defaulting to command-and-control language we've inherited from the industrial era. It's time to ditch the industrial age playbook of leadership. In Leadership is Language, you'll learn how choosing your words can dramatically improve decision-making and execution on your team. Marquet outlines six plays for all leaders, anchored in how you use language. • Control the clock, don't obey the clock: Pre-plan decision points and give your people the tools they need to hit pause on a plan of action if they notice something wrong. • Collaborate, don't coerce: As the leader, you should be the last one to offer your opinion. Rather than locking your team into binary responses ("Is this a good plan?"), allow them to answer on a scale ("How confident are you about this plan?") • Commit, don't comply: Rather than expect your team to comply with specific directions, explain your overall goals, and get their commitment to achieving it one piece at a time. • Complete, not continue: If every day feels like a repetition of the last, you're doing something wrong. Articulate concrete plans with a start and end date to align your team. • Improve, don't prove: Ask your people to improve on plans and processes, rather than prove that they can meet fixed goals or deadlines. You'll face fewer cut corners and better long-term results. • Connect, don't conform: Flatten hierarchies in your organization and connect with your people to encourage them to contribute to decision-making. In his last book, Turn the Ship Around!, Marquet told the incredible story of abandoning command-and-control leadership on his submarine and empowering his crew to turn the worst performing submarine to the best performer in the fleet. Now, with Leadership is Language he gives businesspeople the tools they need to achieve such

transformational leadership in their organizations.
