For courses in Introductory Psychology The most learner-centered and assessment-driven text available Throughout Psychology, Fifth Edition, Sandra Ciccarelli and J. Noland White employ a learner-centered, assessment-driven approach that maximizes student engagement, and helps educators keep students on track. The authors draw students into the discipline by showing how psychology relates to their own lives. Clear learning objectives, based on the recommended APA undergraduate learning outcomes, guide students through the material. And assessment tied to these learning objectives lets students check their understanding, while allowing instructors to monitor class progress and intervene when necessary to bolster student performance. Available to package with Psychology, Fifth Edition, MyPsychLab(r) is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. MyPsychLab is ideal for courses requiring robust assessments. Psychology, Fifth Edition is also available via REVEL, an interactive learning environment that replaces the print textbook, enabling students to read, practice, and study in one continuous experience. REVEL is ideal for courses where student engagement and

mobile access are important. Note: You are purchasing a standalone product; MyLab & Mastering does not come packaged with this content. Students, if interested in purchasing this title with MyLab & Mastering, ask your instructor for the correct package ISBN and Course ID. The most learner-centered and assessment-driven text available. Praised for a very engaging writing style, comprehensive coverage of key research, and strong pedagogical features, Ciccarelli and White focus on getting students to read their textbook. Using the most recent recommended APA undergraduate psychology learning outcomes, the authors establish clear learning objectives for students that are tied to these objectives. Student and instructors praise Ciccarelli

and White's approach to teaching and learning in today's classroom. The thirteen-chapter table of contents covers the essentials that every introductory psychology student should know and fits easily into a one-semester course. A better teaching and learning experience This program will provide a better teaching and learning experience-- for you and your students. Here's how: Personalize Learning - The new MyPsychLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. Improve Critical Thinking -- Features such as Student Voice and Link icons help students understand the material easily. The Student Voice Questions create a dialogue between the reader and the text while the Link icons connect all the related fields of psychology to one another. Engage Students -- The highly visual features such as chapter opening prologues, concept maps, and special feature essays are designed to capture student interest immediately. Explore Research -- With updated references, readers will continue to read about the most current research. Special feature essays found within the narrative cover interesting topics related to the chapter material. Support Instructors -- This program provides instructors with unbeatable resources, including state-of-the art Interactive PowerPoints embedded with videos, the NEW MyPsychLab Video Series, an easy to use Instructor's Manual, a class tested Test Bank with item analysis data, an online test generator (MyTest) and the new MyPsychLab. All of these materials are available to be packaged with the text upon request. Note: MyPsychLab does not come automatically packaged with this text. In the Second Edition of *Scientific Writing for Psychology*, veteran teacher, editor and author, Robert V. Kail provides straightforward strategies along with hands-on exercises for effective scientific writing in a series of seven lessons. Kail shares an abundance of writing wisdom with "tools of the trade"—heuristics, tips, and strategies—used by expert authors to produce writing that is clear, concise, cohesive, and compelling. The exercises included throughout each extensively class-tested lesson allow students to practice and ultimately master their scientific writing skills.
