Any paper—magazines, newspapers, wrapping paper, copy paper—can be upcycled into a variety of shapes and sizes of paper beads that can be used to make colorful, unique pieces of jewelry that no one would guess are made from paper. Fashioned from thin strips of paper and painted in a variety of ways, the beads you make can then be used to make elegant drop earrings, beaded necklaces, and bracelets. Combine them with other unique beads and charms for even more looks. Includes instructions on how to create the paper beads, as well as how to use metal findings, leather cords, and other materials to create professional-looking designs.

Author Kathy King has developed a variation the decorative paper craft of quilling to create unique designs in beadwork. In bead quilling--instead of thin strips of paper--thin strips of beads, made with square stitch, are wrapped to form circles, scrolls, and squares. The holes of the beads, rather than the sides, are exposed, to become part of the distinctive design. The author works with simple and complex combinations of quilled beads to create a variety of jewelry designs. She also incorporates crystals, pearls, and decorative threads into the pieces to add interest and texture.
