Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 193 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and

In 1767, two "princes" of a ruling family in the port of Old Calabar, on the slave coast of Africa, were ambushed and captured by English

slavers. The princes, Little Ephraim Robin John and Ancona Robin Robin John, were themselves slave traders who were betrayed by African competitors--and so began their own extraordinary odyssey of enslavement. Their story, written in their own hand, survives as a rare firsthand account of the Atlantic slave experience. Randy Sparks made the remarkable discovery of the princes' correspondence and has managed to reconstruct their adventures from it. They were transported from the coast of Africa to Dominica, where they were sold to a French physician. By employing their considerable language and interpersonal skills, they cleverly negotiated several escapes that took them from the Caribbean to Virginia, and to England, but always ended in their being enslaved again. Finally, in England, they sued for, and remarkably won, their freedom. Eventually, they found their way back to Old Calabar and, evidence suggests, resumed their business of slave trading. *The Two Princes of Calabar* offers a rare glimpse into the eighteenth-century Atlantic World and slave trade from an African perspective. It brings us into the trading communities along the coast of Africa and follows the regular movement of goods, people, and ideas across and around the Atlantic. It is an extraordinary tale of slaves' relentless quest for freedom and their important role in the creation of the modern Atlantic World.

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties.
