The Rolls-Royce Silver Cloud is a luxury automobile produced by Rolls-Royce Limited from April 1955 to March 1966. It was the core model of the Rolls-Royce range during that period. The Silver Cloud replaced the Silver Dawn and was, in turn, replaced by the Silver Shadow. The J. P. Blatchley design was a major change from the pre-war models and the highly derivative Silver Dawn. As part of a range rationalisation the Bentley S1 is very similar, apart from

The first Silver Cloud and S-type models were introduced in 1955 and the last one built was some 11 years later. Starting with a disadvantage in having a separate chassis and body when monocoque construction was gaining ground they lagged behind other manufacturers. Nevertheless they drove extremely well and ran without failure for many thousands of miles. The majority had standard steel coachwork which was very elegant while specialist coachbuilders were able to create their magic for those fortunate enough to afford it. This is a book of contemporary road and

Rolls-Royce and Bentley relied upon standardised body designs after 1945, but for the next two decades both marques also supplied chassis frames separately, and it was possible to have these clothed with coachwork by bespoke coachbuilders like, for example, Mulliner, Park Ward and James Young in Britain, or Graber, Farina and Franay in Europe. Many buyers took this route, and this highly illustrated book bears witness to the wide variety of styles that were built in this fascinating period. Chassis number lists for each coachbuilder, both in Britain and overseas, identify their creations,
