Women Who Work: Rewriting The Rules For Success: TRUMP ...

"Women who work are real," she writes, in Women Who Work, Rewriting the Rules for Success, her second book. Trump, 35, who was appointed as a White House adviser in late March, writes: "Becoming...

Fifty percent of the world's workforce is made up of women, yet the term oworking womeno is still used as if they're an anomaly. Thanks in part to the generations of women who came before and fought hard to earn a seat at the table, today's working women-among them, tens of millions of millennials-are able to do things differently. Disappearing are the days of face time for the sake of face time, 9-to-5 hours, and perfectly mapped career paths. oToday's generation of women is the first to be able to unabashedly embrace the fact that our lives are multidimensional,o writes Trump. oWe're deeply invested in our careers, but they don't solely define us. For us, it's about working smarter, not harder; integrating our personal passions and priorities with our professional goals in order to architect lives we love.o For the CEO of her own company or a stay-at-home mom: an assistant in a large corporation or a part-time freelancer, this book celebrates the fact that, when it comes to women and work, there isn't one orightto answer. By redefining what it means to be a modern working woman, and offering solution-oriented advice, Women Who Work will establish a new ideal, changing the conversation around women and work to one that's more positive, accurate and inclusive.

NEW YORK TIMES BESTSELLER! Ivanka is donating the unpaid portion of her advance and all future royalties received from Women Who Work to the Ivanka M. Trump Charitable Fund, a donor advised fund that will make grants to organizations that empower and educate women and girls.* "This is a chatty step-by-step guide to living a happy life and getting ahead in a career." -USA Today "The advice is spot-on for everyone, not just women." -Tony Hsieh, CEO of Zappos.com and author of Delivering Happiness I believe that when it comes to women and work, there isn't one right answer. The only person who can create a life you'll love is you. Our grandmothers fought for the right to work. Our mothers fought for the choice to be in an office or to stay at home. Our generation is the first to fully embrace and celebrate the fact that our lives are multidimensional. Thanks to the women who came before us and paved the way, we can create the lives we want to lead-which look different for each of us. I've been fortunate to be able to build my career around my passions, from real estate to fashion. But my professional titles only begin to describe who I am and what I value. I have been an executive and an entrepreneur, but also-and just as importantly-a wife, mother, daughter, and friend. To me, "work" encompasses my efforts to succeed in all of these areas. After appearing on The Apprentice years ago and receiving a flood of letters from young women asking for guidance, I realized the need for more female leaders to speak out publicly in order to change the way society thinks and talks about "women who work." So I created a forum to do just that. This book evolves the conversation that started on IvankaTrump.com, where so many incredible women (and men!) have shared their experiences, advice, ambitions, and passions. Women who work lead meetings and train for marathons. We learn how to cook and how to code. We inspire our employees and our children. We innovate at our current jobs and start new businesses. Women Who Work will equip you with the best skills I've learned from some of the amazing people I've met, on subjects such as identifying opportunities, shifting careers smoothly, negotiating, leading teams, starting companies, managing work and family, and helping change the system to make it better for women-now and in the future. I hope it will inspire you to redefine success and architect a life that honors your individual passions and priorities, in a way only you can. * The Ivanka M. Trump Charitable Fund (the "Fund") is a donor advised fund that supports the economic empowerment of women and girls. Ivanka Trump is the grant advisor to the Fund and sole member of IT WWV Pub, LLC (the "LLC"), which receives royalties from the publication of Women Who Work. The LLC will contribute a minimum \$425,000 to the Fund, which is the unpaid portion of the advance, net of expenses. In addition, the LLC will contribute all future royalties it receives that are in excess of the advance to the Fund during the period from May 1, 2017 to May 1, 2022.

From the daughter of business mogul Donald Trump and a rising star in the Trump organization, this New York Times bestseller is a business book for young women on how to achieve success in any field, based upon what Ivanka Trump has learned from her father and from her own experiences. Inspiration. Success. Confidence. Passion. No one is born with these qualities, but they are the key ingredients for reaching goals, building careers, or taking a blueprint and turning it into a breathtaking skyscraper. In The Trump Card, Ivanka Trump recounts the compelling story of her upbringing as the ultimate Apprentice, the daughter of Donald and Ivana Trump, and shares the life lessons and hard-won insights that have made her a rising star in the business world. Whether it's landing that first job, navigating the workplace, or making a lasting impact, Ivanka's valuable, practical advice for young women shows how to: • Use uncertainty to your advantage-thrive in any environment • Step up and get noticed at work-focus and efficiency will open doors • Create a strong and consistent identity-your name and reputation are your best assets • Know what you want-get the most out of any negotiation. Ivanka also taps into the wisdom of today's leaders, including Arianna Huffington, Russell Simmons, and Cathie Black, with "Bulletins" from her BlackBerry. "We've all been dealt a winning hand," she writes, "and it is up to each of us to play it right and smart."

While part satire and part commentary on women's roles in the workplace, White Women Who Work is a full laugh-out-loud parody of upper echelon, ivory skinned women. Inside, you will find techniques on how to pose at the workplace, which song to pick for the swimsuit portion of your interview and even how to pick the perfect psychiatrist for your infant. Filled with quizzes, this guidebook is a roadmap for all women of no color on their journey to fulfilling their white dreams.

The author interviews a number of prominent women--including comedian Susie Essman, writer and director Nora Ephron and TV personality Joy Behar--to reveal the ways that everyday women can achieve their deserved recognition and financial worth in today's professional world.

It's time to rewrite the rules-to curb the runaway flow of wealth to the top one percent, to restore security and opportunity for the middle class, and to foster stronger growth rooted in broadly shared prosperity. Inequality is a choice. The United States bills itself as the land of opportunity, a place where anyone can achieve success and a better life through hard work and determination. But the facts tell a different story-the U.S. today lags behind most other developed nations in measures of inequality and economic mobility. For decades, wages have stagnated for the majority of workers while economic gains have disproportionately gone to the top one percent. Education, housing, and health care-essential ingredients for individual success-are growing ever more expensive. Deeply rooted structural discrimination continues to hold down women and people of color, and more than one-fifth of all American children now live in poverty. These trends are on track to become even worse in the future. Some economists claim that today's bleak conditions are inevitable consequences of market outcomes, globalization, and technological progress. If we want greater equality, they argue, we have to sacrifice growth. This is simply not true. American inequality is the result of misguided structural rules that actually constrict economic growth. We have stripped away worker protections and family support systems, created a tax system that rewards short-term gains over long-term investment, offered a de facto public safety net to too-big-to-fail financial institutions, and chosen monetary and fiscal policies that promote wealth over full employment.

In Raising Trump, Ivana Trump reflects on her extraordinary life and the raising of her three children-Donald Jr., Eric, and Ivanka-and recounts the lessons she taught her children as they were growing up. As her former husband takes his place as the 45th President of the United States, his children have also been thrust into the media spotlight-but it is Ivana who raised them and proudly instilled in them what she believes to be the most important life lessons: loyalty, honesty, integrity, and drive. Raising Trump is a non-partisan, non-political book about motherhood, strength, and resilience. Though Ivana writes about her childhood in communist Czechoslovakia, her escape from the regime and relocation to New York, her whirlwind romance, and her great success as a businesswoman, the focus of the book is devoted to Ivana's raising of her children. Donald Trump Jr., Eric Trump, and Ivanka Trump will all contribute their own memories to the book. "Every day, people ask me how I raised such great kids. They are truly amazed when I tell them that there was no magic to their upbringing. I was a tough and loving mother who taught them the value of a dollar, not to lie, cheat, or steal, respect for others, and other life lessons that I'll share now in Raising Trump, along with unfiltered personal stories about Don, Eric, and Ivanka from their early childhood to becoming the 'first sons and daughter.'" -Ivana Trump

Ivanka Trump is an American businesswoman and former fashion model who is currently assistant to President Donald Trump. She is the daughter of the president and his first wife, former model Ivana Trump. Trump has been an executive vice president of her father's company - The Trump Organization - as well as serving as a boardroom advisor on her father's TV show The Apprentice. She moved to Washington, D.C in January 2017 as her husband, Jared Kushner, was appointed as a Senior Advisor to the President of the United States by her father. Starting in late March 2017, Trump began serving in her father's administration as assistant to the president. She assumed this official, unpaid federal government position after multiple ethics concerns were raised about her access to sensitive material while not being held to the same ethics restrictions as a federal employee. She is considered part of her father's inner circle.

Saying NO to the Workplace Status Quo: 13 Women Who Are Rewriting the Rules If readers are not sure what a firebrand is, they'll find out in Mikaela Kiner's powerful first book. Women of all generations will nod in recognition at the stories of 13 professional women from diverse backgrounds and industries as they recount the career challenges they've faced and how they have overcome bias, sexism, and the power imbalance. These women are role models, not just because they've been successful in their careers, but because they are mission driven and doing good in the world. They are whole people dealing with work, family, balance, confidence, and the need to stay motivated and strong. Mikaela Kiner spent 15 years in HR leadership at Microsoft, Starbucks, Amazon, PopCap Games, and Redfin. In 2015 she founded Reverb, which helps companies create healthy, inclusive culture that engages and inspires employees. Female Firebrands is an honest, modern, and solutions-oriented guide for dealing with situations working women know all too well: sexual harassment, not being taken seriously, and being talked over, passed over, underpaid, and underappreciated. Mid-career professional women will read this book and know they're not alone. Women earlier in their careers can save years of heartache and frustration by learning what's worked for women who came before them. Chapter checklists provide invaluable to-do lists for women, men who want to be their advocates, and HR and business leaders as well. Readers will learn how to- • Develop tools and techniques to stand and speak up on behalf of yourself and others when it's both difficult and necessary • Get better at recognizing "little indignities" you don't have to tolerate • Understand what it means to be an informed, empowered advocate for women • Increase awareness of your own blind spots and biases so you can learn from them • Recognize the role of privilege at work and how it can be used for positive change

This by-the-bootstraps American success story is one for the ages! Dr. Solanges Vivens explains the 25 most important rules of life and business to the world in hopes to inspire the next generation of female entrepreneurs. From her humble beginnings as black girl in Haiti to a triumphant nursing home director and mother, Solanges has accumulated plenty of wisdom to share. Readers will be inspired by the spiritual fortitude and can-do attitude of a woman who refused to allow herself to be limited by other people's expectations of her and achieved a boundary-breaking level of success solely through the force of her own will. This is an American success story at its heart, one that will appeal to anyone who wants to make a difference in the world around them by rewriting the rules of who rises to the top and whose rags become riches.
